

Smith & Wesson

Handguns

Smith & Wesson's Tradition of Quality

The founding of Smith & Wesson in 1852, began a dedication to produce quality handguns. Through over more than a century and a quarter, Smith & Wesson continues the reputation for unmatched quality in handguns throughout the gun world.

Each Smith & Wesson handgun begins as a single, strong, forged frame. After machining and heat treatment, all external gun parts and components are polished to provide a high quality, durable gun surface.

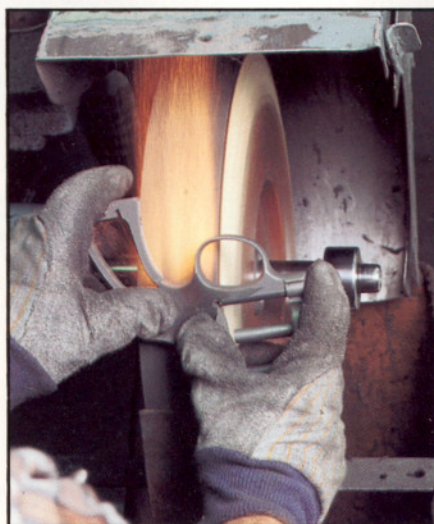

Over 60% of the assembly of Smith & Wesson handguns is performed by hand. All working mechanisms are custom assembled or fitted to assure smooth working, reliable revolver action. After fitting has been completed, revolvers are test fired for function, performance and accuracy. Final inspection covers over 50 quality checks to insure the final product maintains the Smith & Wesson tradition of quality.

Hand Assembly

Smith & Wesson Frames

Smith & Wesson handguns are available in four frame sizes.

J Frame - The smallest of the Smith & Wesson frames, the J frame is lightweight, compact, comfortable and easy to carry. S&W J frame revolvers offer the widest selection of stocks and trigger styles in small frame handguns.

K Frame - This medium size frame is most preferred by Law Enforcement Officers. K frame revolvers are available in .22, .22 Magnum, .38 Special and .357 Magnum calibers with a variety of barrel lengths.

L Frame - Intermediate size frame is slightly larger than the K frame. The L frame revolver accommodates a sturdier cylinder and features a heavy weight barrel with a full length, solid steel extractor shroud. Revolvers are available in .357 Magnum®/.38 Special.

N Frame - Largest of the Smith & Wesson frame sizes, N frame revolvers are favored by sportsmen for handgun

hunting and competitive shooting. They are available in .38/.357 Magnum, .41 Magnum, .44 Magnum and .45 calibers in a variety of barrel lengths.

Smith & Wesson Handgun Finishes

Smith & Wesson handguns are available in three finishes. The unmatched quality of the Smith & Wesson's lustrous nickel, blue, or weather resistant stainless steel finish is achieved through a combination of expert polishing and finishing processes.

Handgun Accessories

Model 41 Pistol Field Barrel

This five inch barrel instantly converts your Model 41 target pistol into a handy, compact pistol ideal for field use. Features include: Fully adjustable micrometer click rear sight, patridge undercut front sight, five inch barrel length, 12¾ ounce weight in a blue finish.

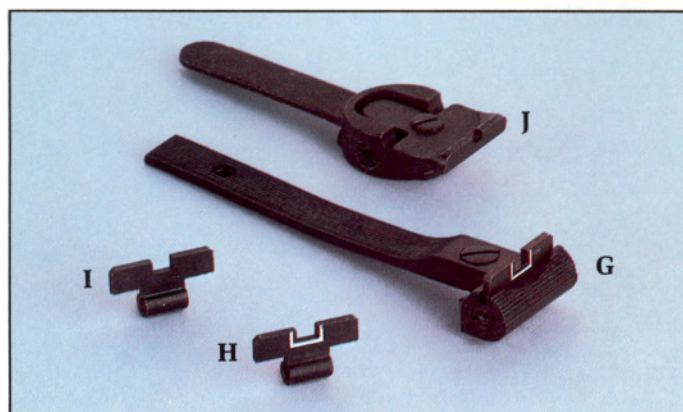

Target Sights

This varied selection of target sights enables the shooter to have his K, L or N frame target model customized with the front and rear sights of his choice. The following front sights are available* for N, K and L frame target models (adjustable sights) with full length barrel rib:

- A. Patridge blade on ramp base (or blade only)
- B. Baughman Quick Draw blade on ramp base (or blade only)
- C. S&W Red Ramp blade
- D. S&W Red Post blade
- E. McGivern Gold Bead on Patridge blade
- F. Call Gold Bead on Patridge blade

Since gun and front sight configurations vary, the accompanying drawings are for illustrative purposes only.

Rear Sights

The following rear target sights are available as separate accessory items, or for factory installation on N, K and L frame target (adjustable sight) revolvers with full length barrel rib:

- G. S&W Micrometer Click Rear Sight Assembly with White Outline or plain Rear Sight Slide
- H. White Outline Rear Sight Slide
- I. Rear Sight Slide
- J. Fully adjustable rear sight assembly for Model 39 and Model 59 semiautomatic pistols. Available only as an accessory. Simple installation instructions included. White outline not available.

*Target front sights C-F are available only on gun orders or for installation on guns returned to our Service Center. Only Patridge and Baughman front sights (with or without ramp) are available for sale as separate accessory parts.

Smith & Wesson offers an assortment of accessories and factory installed options that enables a shooter to tailor a handgun to his particular needs.

Target & Combat Stocks

Smith & Wesson target stocks are available in checkered walnut or imported Goncalo Alves in a hand checkered or smooth finish. The target stock positions the hand lower on the gun to provide a more precise alignment of the trigger finger to the trigger, while also allowing a straight back and down hammer pull in single action fire. All come with nickel finished S&W medallions.

Smith & Wesson combat stocks provide a sure grip with its deep finger grooves. Available in smooth Goncalo Alves, the combat stocks are available with the special "speed loading" recess.

Handgun Accessory Display

When looking for accessories for your Smith & Wesson handgun, check out the assortment available on the Smith & Wesson handgun accessory display.

The rotary, space saving floor unit attractively displays 38 of the most sought after handgun accessory items. Displayed accessories include: combat and target stocks, rear sight assemblies, hammers, triggers and cleaning kits. All are visually packaged for easy identification with printed reference information and instructions for installation.

Smith & Wesson Presentation Cases

Solid mahogany presentation cases are available with a fitted interior that will accommodate Smith & Wesson N frame revolvers or with a universal interior designed to accommodate any handgun with up to a 10 inch barrel length.

Custom Engraved Handguns

Make your Smith & Wesson handgun truly your own. Smith & Wesson can provide you with custom engraving upon request.

The distinctive beauty of Smith & Wesson engraving is available on any handgun model or finish. Each custom engraved handgun is a unique, original work of art created and executed by skilled artisans.

With custom engraving, virtually any type of custom design can be achieved. Anything from two or three initials, duplicates of seals or emblems to profuse inlaying with silver, gold or platinum can be provided. Quotations are available upon request.

Class A, B and C Engraving

Smith & Wesson provides class A, B or C engraving on all revolvers and automatics. Fine, detailed engraving is provided on the sideplates, barrel and cylinder.

Class A Engraving provides full coverage over the whole gun.

Class B Engraving provides 2/3 coverage on a handgun.

Class C Engraving provides 1/3 coverage on a handgun.

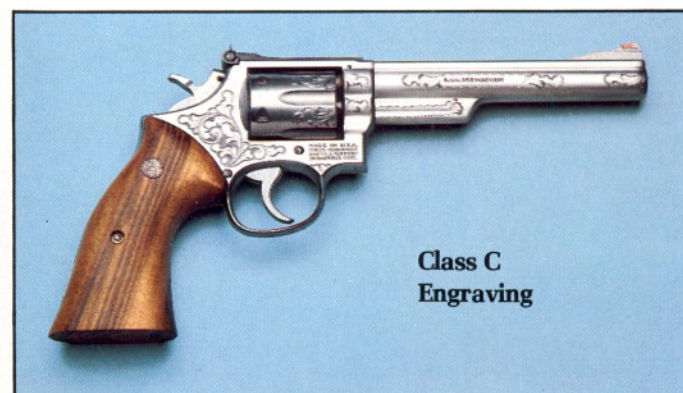

Class A, B or C engraving can be provided on your currently owned handgun or ordered with your new Smith & Wesson handgun. Consult your dealer or Smith & Wesson for costs and details.

**Class A
Engraving**

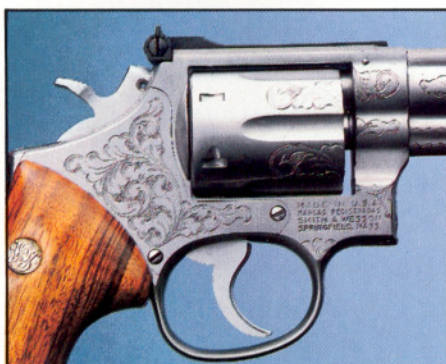

**Class B
Engraving**

**Class C
Engraving**

Smith & Wesson detailed engraving provides a personal touch to your handguns on any of the three available finishes. Close-ups show detail of class A engraving on a

nickel, blue and stainless steel sideplate of a Smith & Wesson handgun.

Leather Holsters

Complement your Smith & Wesson handgun with finely crafted Smith & Wesson holsters and accessories. Select, top grain cowhide and attention to detail assures you of quality and dependable service.

Model 21 Blazer Holster

One of the most popular holsters ever developed, the blazer is designed for all single and double action sporting revolvers and automatics with 2 to 8-3/8 inch barrels. Features include a trigger guard welt, retaining strap, open muzzle and a 3 inch belt loop. Available in plain black or russet leather.

Model 22 Lined Holster

Premium quality, fully lined holster accommodates all frame size revolvers and automatics with barrels up to 8-3/8 inches long. Features include a single retaining strap, sight protector, glove soft leather lining and a closed muzzle. Available in plain or weave black or russet.

Model 27 Sportsman Holster

Close fitting, high ride holster is crafted from pre-finished brown leather and fully lined in soft suede. Holster is accented by decorative top stitching and accommodates the more popular revolvers and automatics. Features include a thumb break, sight protector, closed muzzle and a 2 1/4 inch belt loop. Available in pre-finished brown only.

Model 29 Slimline Holster

Comfortable and attractive, this holster remains snug against your body. Crafted from the finest leather and accented by top stitching, the Slimline will accommodate small and medium frame revolvers with 2 to 4 inch barrels. Features include a thumb break, open muzzle, favored "F.B.I. tilt" and concealed 1 3/4 inch belt loops. Available in brown and black.

Model 44 Hugger Holster

Flat, snug-fitting holster is designed for small and medium frame revolvers with 2 to 4 inch barrels and for Smith & Wesson automatics. Holster rides high on the belt in the favored "F.B.I. tilt." Features include a trigger guard, wide thumb break release strap, open muzzle and 1 3/4 inch belt loop. Available in plain or weave black or russet.

Model B06 Concealed Thumb-Break Holster

Innovative S&W design hides the popular thumb-break behind the grip of the gun. Protects from accidental opening from bumping or snagging. It's positioned exactly where the thumb will naturally release the retaining strap as the hand moves to draw the weapon. The weapon is perfectly positioned for a fast draw. Features include a concealed thumb break, full leather lining, double welt construction and a 2 1/4 inch belt loop. Available in plain or weave black.

Model B14 Combat Holster

Combat style duty holster with Smith & Wesson's popular concealed thumb break accommodates medium and large frame revolvers with 4 inch barrels. Features include a concealed thumb break, double row stitching on the welt, open muzzle, sight guard and a 2 1/4 inch belt loop. Available in plain or weave black.

Model B16 State Patrolman Holster

Rugged swivel holster with border patrol style body accommodates medium and large frame revolvers with 4 to 6 1/2 inch barrels. Features include a sight protector, concealed swivel, locking swivel, retaining strap, closed muzzle and a 2 1/4 inch belt loop. Available in plain or weave black.

Model B30 Security Plus Holster

Unmatched security is provided by this unique design. The gun can be drawn only directly forward against the pressure of a leaf spring. Accommodates medium and large frame revolvers. Features include a reinforced shank, one piece trigger guard, recessed front spring and open muzzle. Available in plain or weave black or Clarino.

Model H32 Uniform Non-Swivel Holster

Rugged, good looking clarino holster accommodates most medium and large frame revolvers with 4 inch barrels. Features include a metal reinforcing plate, full body welt, single retaining strap, plugged bottom and sight protector. Available in Clarino.

Model 03 Upside Down Shoulder Holster

Compact, concealable holster provides comfort and quick access to gun. Accommodates most small and medium frame revolvers with 2 to 3 inch barrels. Features include a unique retention system, soft glove leather shoulder harness and a nylon web back harness. Available in plain russet leather only.

Model 11 Automatic Holster

Ruggedly designed, high-ride holster accommodates most medium and large frame automatics with up to a 5 inch barrel. Features include an open muzzle, full welted seam, open trigger guard and 1 3/4 inch belt loop. Available in plain or weave, black or russet.

Model B17 Border Patrol Holster

Rugged holster is designed to accommodate most medium and large frame revolvers with 4 to 6 1/2 inch barrels. Features include a metal reinforcing plate, sight protector, full body welt, plugged bottom, retaining strap and 2 1/4 inch belt loop. Available in plain or weave black.

Model 43/45 Shoulder Holster

Popular shoulder holster provides maximum concealment. The offset belt strap pulls the holster and gun closer to the body, while a removable belt strap on the opposite side provides additional security. Accommodates large frame automatics and revolvers with a 2 to 6 1/2 inch barrel. Features include a glove leather shoulder harness, elasticized nylon harness, removable hammer strap and a breakout spring tension retention. Available in brown only.

Model 23 Shoulder Holster

Adjustable harness provides maximum concealment and comfort, while a tension screw assures a proper fit of the gun. Accommodates all revolvers with a 2 to 4 inch barrel. Features include an adjustable belt strap, full grip clearance and easily adjustable harness. Available in russet.

Model 45
Same as above but lined in brown suede.
